

Ben Brady

benbradybusiness@gmail.com

I'm a student software engineer with an interest in computer science and software engineering. I'm hardworking, driven and always willing to learn and improve myself.

SKILLS

Python — 4 Years

Python with 4 years of experience, it's my primary coding language. I have experience in several database (MongoDB, Sqlite3) and web server frameworks (FastAPI, Flask) as well as popular libraries such as pillow, numpy, and requests.

Javascript / Web Development — 2 Years

I have worked on several projects using javascript, both for websites as well as for Node.js. I primarily have experience with using React, as well React Redux, React Query, and Express.js.
